An  
ISO 9001:2015  
Certified company

### **Profile:-**

Established in the Year 1968, at New Delhi, India, we Electrical Sales Corporation are committed to provide stability and strength to varied electrical installation around the nation. With brand name ESCO Switchgears, we are manufacturing and supplying a qualitative range of Electrical Products such as M.C.B's R.C.C.B's & isolators Changeovers, etc. This entire array is fabricated at our well-equipped production unit under the supervision of our highly qualified engineers making use of modern machinery cutting edge technology and high grade components. Owing to dimensional accuracy, elevated durability, fire resistance and high strength our offered products have gained huge demand across varied industrial, residential and commercial sector, In our product gamut we are offering M.C.B. Distribution Boards Industrial Box, Plug & Socket Re-wirable Switch fuse Units, Fuse Switch Units Changeovers, Bus Bars Chambers Fuse Units (Kit Kat) Panel accessories, Cable Ducting Solution etc.

### Switch Fuse Unit (SFU/FSU/SDF)

The Rewirable Switch Fuse Units are used for distributing power and protecting electrical devices and cables from damage due to fluctuations. This fuse unit is housed in an enclosure made using quality CR steel sheet.

### (MCB/MCCB)

A circuit breaker is an automatically operated electrical switch designed to protect an electrical circuit from damage caused by excess current from an overload or short circuit. Its basic function is to interrupt current flow after a fault is detected.

### For Main incomer like MCB/MCCB/SFU selection:

First Calculate total connected load using individual equipment wattage as given above, then find out total load current using given formula.

this load current gives main incomer rating.

#### Note:

1. While calculation you should consider diversity factor and power factor of Loads.
2. Add 10% extra for future expansion depending upon the situation.

### (Indicative MCB Selection Chart)

Sr. No.	Items	Load/Wattage	MCB rating	Wire size Sq. mm
01	Fan	60 W	0.5 A	1
02	Lamp, Tubelight	40 W	0.5 A	1
03	Room Heater	200 W	1 A	1.5
04	Water Heater			
	8 ltrs	1200-2000 W	10 A	2.5
	15 ltrs	3000-4000 W	20 A	4
	30 ltrs.	4000-6000 W	32 A	6
05	Immersion Heater	1000 W	6 A	1.5
06	Hot Plate-single	1000 W	6 A	1.5
07	Iron- non automatic	500 W	3 A	1.5
	automatic	1000 W	6 A	1.5
08	Mixer/ Juicer	300 W	2 A	1.5
09	TV/VCR	200 W	1 A	1.5
10	Music system	200 W	1 A	1.5
11	Refrigerator			
	165 ltrs	400 W	3 A	1.5
	285 ltrs	600 W	4 A	1.5
	350 ltrs	750 W	6 A	1.5
12	Toaster	500 W	3 A	1.5
13	Vacuum Cleaner	400 W	3 A	1.5
14	Washing machine			
	without heater	300-1300 W	10 A	2.5
	with heater	5000-6300 W	32 A	6
15	Water Cooler	700 W	6 A	1.5
16	Desert Cooler	300 W	2 A	1.5
17	Oven	750 W	6 A	1.5
18	Electrical Kettle	1500 W	7.5 A	1.5
19	Air Conditioner			
		1 ton	10 A	2.5
		1.5 ton	25	4
		2 ton	32	4
20	Hair Dryer	1000 W	7.5 A	1.5
21	Microwave	800 W	6 A	1.5
Formula for Calculation :				
Incomer Rating :		Single Phase = Total Load in Watts 230 volts		
		Triple Phase = Total Load in Watts 3x230 volts		

## Miniature Circuit Breaker's (M.C.B)

HSN Code 85362030

In Accordance With IS/IEC 60898-1 CM/L- 8460983 'C' SERIES 50 Hz. 230/415 V.

## Switch Disconnecter Fuse Unit (S.D.F.U.) T.P.N. 50 Hz. 415 V.

### General Description:

ESCO Heavy Duty SWITCH DISCONNECTOR FUSE UNITS are available from 32 Amp. to 400 Amp. These switches are designed for easy panel mounting in switch boards for power distribution. they can be used for mixed resistive and inductive circuits and capacitor banks in both AC & DC circuits, Specially designed rollar contact system ensure high breaking capacity long contact life and safety under short circuit conditions.

### The salient feature of the switches are:

- Fall proof operating mechanism.
- Double brek mechanism.
- Stationary Fuse links.
- Positive indication of Contact separation.
- Compact size for low panel locations.
- Adjustable handle for different panel locations.
- Padlock, door interlock and defect interlock provided.
- Available in open execution and with enclosure.

### Range & Frame Size:

SIZE	1	32 A,	63 A.
SIZE	2	100 A,	125 A.
SIZE	3	200 A,	250 A, 315 A, 400 A.

### Construction:

The construction of switch is such that it provides maximum protection as well as easy opration. The mechanism of the fuse switch is enclosed in a fully insulated DMC Body which ensures high standards of electrical & mechanical operations. Fuses are stationary in these switches. Inside the body there is a sliding plate which carries rollers while operating the switch rollers itself cleans the fix contacts. There is a double break mechanism which isolator the fuse switch from both incoming & outgoing circuits. Phase barriers are provide for added safety. All the copper contacts & bars are made from highly electrolytic copper and are silver plated for better conductivity.

#### DESCRIPTION :

ESCO heavy duty ON LOAD CHANGEOVER SWITCHES are designed for easy panel mounting in switchboards for application in low voltage distribution circuits and motor circuits. They are used at places where continuity of supply is necessary for switching to an alternative source of supply from main supply & vice-versa. ON LOAD CHANGEOVER SWITCHES are available in open execution as well as in sheet steel enclosure.

#### CONSTRUCTION :

ESCO ON LOAD CHANGEOVER SWITCHES are made of two load switch disconnectors which are coupled together and are mechanically interlocked with a common outgoing. The mechanism of ON LOAD CHANGEOVER SWITCH is enclosed in a fully insulated DMC Body which ensures high standards of

electrical & mechanical properties. THE CONTACT mechanism of ON LOAD CHANGEOVER SWITCH is knife blade type. Inside the body a moving plate carries four blades per pole. Using on position contact is made with the main contact. Copper used is of E.T.P. Grade & is silver plated for maximum conductivity.

#### TECHNICAL DATA :

Rate operational voltage (Ue)	: 415 V.A.C.
Utilization category	: AC-23A
No. of POLES	: 4 Poles (With switched neutral)
Rated insulation voltage (Ui)	: 1000V
Temp with stand Range (ambient)	: -5 to 50°C
Voltage (Uimp)	: 10 kv
Dielectric strength at 50 Hz	: 5000 KV
